SUBJECT INDEX TO VOLUME 43

PAGE

Acidity in tomatoes, Inheritance of ... 528
Alfalfa with soil zone, Changes in sulphur, phosphorus and potassium content of ... 94
Alfalfa, A floral mutant of ... 228
Alfalfa, The influence of variety, soil temperature, and phosphorus fertilizer on yield and phosphorus uptake by ... 355
Alfalfa, Beaver ... 615
Apple trees to amitrole, diuron and simazine, The tolerance of young ... 113
Apple scab cultures, The effect of CO_2 and O_2 mixtures on the growth of ... 227
Apple rootstock vigor by the electrical conductivity of water extract, The estimation of ... 228
Ascorbic acid in tomatoes:
I. Distribution and method of assay ... 206
Aster yellows on head lettuce in Manitoba, Control of the six-spotted leafhopper, *Macrosteles fascifrons*, and ... 12
Attachment for combine harvesters, A grain weighing ... 109
Awn brittle in barley, A new method of measuring ... 245

Bacillus thuringiensis Berliner, The influence of some fungicides on the effectiveness of sprays of ... 301
Barley varieties, Chemical composition of diploid and autotetraploid ... 23
Barley yield trials, The influence of seed size on results of ... 51
Barley, The relationship between kernel location, kernel size and the incidence of loose smut in ... 88
Barley, Inheritance of reaction to *Rhynchosporium secalis* in ... 184
Barley, The effect of loose smut on the yield and malting quality of ... 222
Barley, Effect of seed source on comparative test results in ... 295
Barley, The influence of seed size and seeding rate on yield and yield components of ... 330
Barley varieties to the aphid *Rhopalosiphum padi* (L.), Further studies on resistance of ... 343
Black cutworm, *Agrotis ipsilon*, in flue-cured tobacco, Chemical control of artificial infestations of the ... 30
Blueberry production, The effect of frequency of rotational burning on ... 161
Blueberry stand, The effect of a single intensive cultivation on the composition of an old ... 417

Cabbageworm on cauliflower, Control of the imported ... 598
Canadian races of crown rust and stem rust, Reaction of non-cultivated oats from Israel to ... 263
Cereals and flax, The effect of varying row spacings on the agronomic and quality characteristics of ... 119
Cereal seeds, Some factors affecting the dispersal of liquid seed dressings among ... 313
Cocoa from leaf length data, Estimation of leaf areas of ... 243
Colchicine solution in the treatment of germinating blueberry seeds to induce polyploidy, Aeration of ... 107
Compressed-air sprayer for applying herbicides along rows of trees and hedges, A portable ... 421
Coumarins in sweet clovers, An addition to the biochemistry and genetics of ... 415
Cypress, a new hard red spring wheat ... 232

2,4-D and related herbicides, The differential response of strains of wild carrot to ... 255
Date of seeding on a number of plant characteristics for five flax varieties, The effect of ... 583
Device for measuring leaf areas, An improved ... 247
Diurnal, sinusoidal cycle in greenhouse temperature, Providing a ... 428
Dwarf wheat plants, A method of inducing seed production in ... 419

Electronic temperature controller to provide diurnal temperature variations in plant growth chambers, The modification of ... 111
Evaporation from Bellani plates and evapotranspiration from lysimeters, Effects of weather on ... 1
Evapotranspiration from lysimeters, Effects of weather on evaporation from Bellani plates and ... 1

PAGE

Fertilized pastures in central Alberta, The productivity of 188
Field bindweed, The extent of lateral spread of 230
Flax, The effect of varying row spacings on the agronomic and quality characteristics of cereals and 119
Flax seedlings, A non-pathogenic canker of 408
Floral mutant of alfalfa, A 228
Flotation method for segregation of water core apples, A 600
Fluoride levels in some Ontario peach orchards, Atmospheric 547
Forage production with different clipping frequencies of rye and oats alone and in mixtures in the greenhouse 469
Forage Plot Harvester II, The Swift Current 602
Fruit trees, The micro-climate of
I. Light measurements with uranyl oxalate actinometers 561
Fruit trees, Estimation of leaf area and leaf distribution in 597
Fungicidal control of fruit and foliage diseases of strawberry in Nova Scotia 462
Fungicides on McIntosh apple trees, Effect of 497
Fungicides for use in smoke generators, A loboratory evaluation of 554

Genes for wrinkled and dimpled seed in peas, New 508
Germination of seed of Bells of Ireland, The effect of gibberellin and temperature on the 522
Gossypium hirsutum L. seedlings grown from deteriorated seeds, Morphology and histology of pinched root tips of 146
Grape phylloxera, *Phylloxera vitifoliae*, in the Niagara Peninsula, Ontario, Abundance and distribution of the 38
Growth cabinet, A photographic method for determining light tightness of a 412
Growth inhibitor found in *Centaurea* spp., A 475

Head lettuce in Ontario, Root rot of 166
Hernie, *Plasmodiophora brassicae* Wor., des crucifères en soles minéral et organique, Lutte chimique contre la 349
High intensity illumination, A qualitative method of examining the uniformity of 436

Irrigation sur pâturage: Détermination, fréquence et rentabilité 370
Irrigation on yield, seasonal distribution and chemical composition of three pasture mixtures, The effect of 575

Kemp thresher, A quick change cylinder speed control for the 438
Kernel weight ratio in the progeny of a six- and two-rowed barley cross, Main and lateral 589

Laboratory table transformed into a transferring chamber, A 604
Loose smut in barley, The relationship between kernel location, kernel size and the incidence of 88
Loose smut on the yield and malting quality of barley, The effect of 222
Loose smut resistance, Inheritance of:
II. Inheritance of resistance in three barley varieties to Races 1, 2 and 3 of *Ustilago nuda* (Jens.) Rostr 390

Machine for cutting *Avena* first-internode sections for auxin bioassay 435
Magnetism and plant growth:
I. Effect on germination and early growth of cereal seeds 513
Malting quality of barley, The effect of swathing at different stages of maturity on the 534
Mandarin (Ottawa) soybeans, Some effects of planting pattern on yield, per cent oil and per cent protein in 131
Minimum available soil moisture on crop yields, Effects of levels of 441
Moisture balance for maintaining the moisture content of individual soil containers, A constant 433
Mutants of Lambert cherry produced by ionizing radiation, Compact 424

Narcissus cut flowers, The effects of growth substances on the bloom life of 225
Nitrogen and phosphorus fertilization on wild oats and spring wheat, Effect of 64
Non-cultivated oats from Israel to Canadian races of crown rust and stem rust, Reaction of 263

PAGE

Oat varieties for use as ensilage, A study of 157
Oat crop, The temperature distribution within an 235

Peach varieties, A relationship between the rate of leaf abscission and perennial canker in 365
Peas, New genes for wrinkled or dimpled seed in 508
Phosphate et de la potasse sur l'établissement, le rendement et la composition chimique du lotier cultivé sur deux types de sol, Influence du 97
Phosphorus fertilization on wild oats and spring wheat, Effect of nitrogen and 64
Plant growth and chemical composition, Effects of nutrition, osmotic pressure, and temperature of the nutrient solution on:
I. Spring wheat at the 4- to 6-leaf stage 44
Pollen transmission of necrotic ring spot and sour cherry yellows from tree to tree 276
Polybutenes, Phytotoxicity and persistence of 416
Potasse sur l'établissement, le rendement et la composition chimique du lotier cultivé sur deux types de sol, Influence du phosphate et de la 97
Potato digger for small experimental plots, A 107
Pratylenchus penetrans to celery, The pathogenicity of 70
Pratylenchus penetrans to strawberry, The pathogenicity of 75
Pratylenchus penetrans in clonal apple stocks and its control by hot-water treatment 195

Rape, Methods of breeding for oil quality in 271
Red clover, Reliability of flowering as an indicator of winter survival in 386
Red raspberry mosaic vector, the aphid *Amphorophora rubi* Kalb., Immunity to the North American strain of the 413
Reed canary grass, A histological study of seed shattering in 200
Rod-row tests with barley grown at three topographical locations as influenced by alleviating a phosphorus deficiency, The precision of 519
Root-knot nematodes in southwestern Ontario, Winter survival in 361
Rotational burning on blueberry production, The effect of frequency of 161
Russian wild ryegrass for seedling vigor, A comparison of methods of evaluating 307
Russian wild ryegrass in relation to tall wheatgrass and slender wheatgrass, Salt tolerance of 397

Seed shattering, Evaluating grass plants for 59
Seed shattering in canary grass, A histological study of 200
Seed production in dwarf wheat plants, A method of inducing 419
Seed dispenser for cereal plots, A 607
Selkirk wheat swathed at different stages of maturity, Yield and quality of 338
Sheet plastic, Equipment for molding 240
Six-spotted leafhopper, *Macrosteles fascifrons*, and aster yellows on head lettuce in Manitoba, Control of the 12
Small sprayer for experimental work in greenhouses, Design and performance of a 252
Soil sampler for field wireworm studies, A power operated 242
Soil aggregation after perennial grasses in semi-arid environment, Wheat yields and 289
Soil moisture control in greenhouse pots, A method for 410
Soil penetrometer for measuring sponginess of turf, The modification of a 425
Soybean strains, Investigations on a non-nodulating and nodulating 542
Specific gravity of single seeds and seed samples and the correlation of specific gravity with oil content, Methods for rapid determination of 151
Spring wheat and spring barley varieties, Photoperiodic sensitivity of head differentiation, culm elongation, and heading in some 323
Sunflower rust, Studies on:
IV. Two genes, R_1 and R_2 for resistance in the host 490
Symptoms of sour cherry yellows and necrotic ring spot obtained by graft inoculations at or near blossom time, Initial 569

TCA on green foxtail in competition with cereals, The effect of 451
Toadflax in Saskatchewan, Spread of 214
Tobacco, Varietal differences in calcium level in leaves of flue-cured 141
Tobacco, Influence of culture solution temperature on uptake of radiocalcium by flue-cured 447
Tobacco mosaic on the yield of field tomatoes as influenced by sprays of milk and doss, The effect of 457
Tomato, Earlinorth 239

PAGE

Tomato crosses, Early-generation testing for fruit maturity and size in 379
Tomato, Early Lethbridge 610
Tomato, Earlicrop 611
Tomato, Starfire 614
Tomato cropping, CO_2 effects on greenhouse 618
Tomatoes, Ascorbic acid in:
I. Distribution and method of assay 206
Tomatoes as influenced by sprays of milk and doss, The effect of tobacco mosaic on the yield of field 457
Tomatoes, Chemical and cultural treatments for the control of storage rots of 503
Tomatoes, Inheritance of acidity in 528
Trace element effects on oats and alfalfa grown on three soils 482
Tractor-mounted spreader for applying granular herbicides in shelterbelts, An offset 423
Twin seedlings in *Bromus inermis*, A cytological and morphological study of 18

Wheat yields and soil aggregation after perennial grasses in semi-arid environment .. 289
Wheat, Stewart 63 durum 605
Wheat, Talbot winter 612
Wheat, Park hard red spring 617
Whole grasses and their parts at progressive stages of maturity, The *in vitro* digestibility of 79

Yellow peas, Studies of factors affecting cooking quality of 174
